## **INDEPENDENT AUDITOR'S REPORT**

To the Board of Education Gunnison Watershed School District RE-J1

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, and each major fund of Gunnison Watershed School District RE-1J (the "District"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Member: American Institute of Certified Public Accountants

Paul J. Backes, CPA, CGMA MICHAEL N. JENKINS, CA, CPA, CGMA DANIEL R. CUDAHY, CPA, CGMA AVON: (970) 845-8800 ASPEN: (970) 544-3996 FRISCO: (970) 668-348 I

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, and each major fund of Gunnison Watershed School District RE-1J as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

#### **Other Matters**

U.S. generally accepted accounting principles require that Management's Discussion and Analysis in Section B, and the Schedule of Employer's Proportionate Share of the Net Pension Liability and the Schedule of District Contributions in Section E, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison information in section E is not a required part of the basic financial statements but is supplementary information required by U.S. generally accepted accounting principles. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements taken as a whole. The individual fund budgetary information in section F and the Colorado Department of Education Auditor's Electronic Data Integrity Check Figures are presented for purposes of additional analysis and are not a required part of the District's financial statements. The individual fund budgetary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

#### **Other Matters**

Additionally, the Schedule of Expenditures of Federal Awards included in the Single Audit section is presented for the purpose of additional analysis, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"), and is not a required part of the District's financial statements. Such information has been subjected to the auditing procedures applied to the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements as a whole.* 

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report datedDecember 13, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Gunnison Watershed School District RE-1J

Management's Discussion and Analysis

#### Gunnison Watershed School District RE-1J

#### Management Discussion and Analysis

As management of Gunnison Watershed School District RE-1J, we offer readers of the District's annual financial report this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

#### **Financial Highlights**

- The liabilities of the District exceeded its assets as of June 30, 2019, by \$24,299,765 (net position). This is primarily due to the District's PERA Net Pension Liability of \$37,408,935 and Net OPEB Liability of \$1,869,037.
- The District's net position increased by \$7,649,791 from 2018, primarily due to the affect from changes in the District's Net Pension Liability and Net OPEB Liability.
- The District's General Fund had a fund balance of \$7,464,339, or 40% of total General Fund Expenditures.

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

**Government-wide financial statements** – The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The government-wide financial statements include the statement of net position and the statement of activities.

The *statement of net position* presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of the financial health of the District.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. Changes in net position are reported as soon as the underlying event effecting the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and changes in long-term compensated absences).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities).

• **Governmental activities:** Most of the District's basic services are included here, such as instructional services, support services, food services and student activities. Such services included activities relating to building maintenance, technology and administration.

The district-wide financial statements also include Marble Charter School, which is a discretely presented component unit of the District.

The district-wide financial statements can be found on pages C1 and C2 of this report.

#### Fund Financial Statements

A fund is a grouping of self-balancing, related accounts that are used to maintain control over resources that have been segregated for specific purposes. Our District uses fund accounting to ensure and demonstrate compliance with financial and government fund and proprietary funds.

#### **Government Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on current sources and uses of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's nearterm financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between the governmental fund and governmental activities.

The District's most significant, or "major" governmental funds include the General Fund, Bond Redemption Fund, Capital Reserve Capital Projects Fund, Food Services Fund, Pupil Activity Fund, and the 2014 Mill Levy Override Fund.

The District adopts an annual appropriated budget for all of its funds. A budgetary comparison statement has been provided for all funds to demonstrate compliance with state budget statutes.

The basic major governmental fund statements start on page C3.

## **Proprietary Funds**

Proprietary funds are used to report the same functions presented as business-type activities in the district-wide financial statements. The District uses an enterprise fund to account for its employee health and dental benefits. Internal service funds are an accounting device used to accumulate and allocate costs internally to the Districts various functions. Because the service predominately benefits governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the district-wide financial statements, only in more detail. The proprietary fund financial statements provide financial reports for the District's health services fund which is considered to be a major fund of the District.

The basic Proprietary Fund financial statements can be found on pages C7 thru C9, of this report.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplemental information that further explains and supports the financial statements with a comparison of the District's budget for the year.

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

An annual review of net position may serve as a useful indicator of a government's financial position. The District's liabilities exceeded assets by \$24,299,765. In the previous year of 2018, the liabilities exceeded assets by \$31,949,556.

The assets of the District are classified as current assets, non-current assets, and capital assets. Current assets are available to provide resources for the near-term operations of the District. The majority of the current assets are the result of the property tax receivables and cash and investments.

Capital assets are made up of land, buildings, equipment/vehicles, and construction in progress. Current and long-term liabilities are classified based upon anticipated liquidation, either in the near-term or in the future.

The remainder of this page is intentionally left blank

## **Statement of Net Position**

The following table provides a summary of the District's net position as of the fiscal years ended June 30, 2019 and 2018.

	2019	2018	
Assets:			
Current and other assets	\$ 23,803,606	\$ 20,218,019	
Capital assets, net	58,861,159	60,291,315

Change in Net Position	7,649,791	(10,214,257)
Net Position - Beginning of Year	(31,949,556)	(21,735,299)
Net Position - End of Year	\$ (24,299,765)	\$ (31,949,556)

#### Gunnison Watershed School District RE-1J Changes in Net Position

Property taxes, specific ownership tax, and per pupil state formula revenue (School Finance Act-State Equalization) account for most of the District's revenue. The remaining revenue comes from grants and contributions with the remainder from fees charged for services and miscellaneous sources. The District's expenses predominantly relate to instruction and support services, which include support for students and instructional staff, administration, operations and maintenance, and transportation. Given that the District is a service organization providing education services to students, the majority of the expenses are paid in the form of compensation (salaries and benefits) to the District's employees. The changes in expenses relate primarily to amortization of increases in the District's Net Pension Liability.

The following chart displays the revenues by source for the total District:

The following chart displays the expenditures by source for the total District:

The District's expenditures are predominately related to instruction, with the general administrative and support services, transportation, operations and maintenance, and interest on bond payments accounting for the remaining expenditures.

**Financial Analysis of the District's Funds:** As mentioned earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned balances may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year. The District increased their unassigned balance, or fund balance, at the end of this fiscal year.

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$18,757,139 which is an increase of \$3,086,071 from the prior year ending fund balances.

**General Fund Budgetary Highlights:** The District's budget is prepared according to Colorado law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund. The original budget is prepared based on a conservative estimate of student growth. This guarantees the District does not overstaff or overextend its financial capabilities. The General Fund's actual results were under budgeted appropriations by \$576,255.

**Capital Assets and Debt Administration:** The District's investment in capital assets for governmental activities as of June 30, 2019, amounts to \$58,861,159 (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, and vehicles.

Long Term Debt: As of June 30, 2019, the District had outstanding debt of \$52,252,501.

**Economic Factors and Next Year's Budget:** The Public School Finance Act of 1994 is the largest source of revenue for the District's operating funds. The School Finance Act calculates per-pupil funding by school District based upon a formula that takes into consideration the cost of living, number of students, District size, personnel vs. non-personnel, and number of at-risk students. The purpose of this act was to establish a financial base of support for public education, to move towards a uniform mill levy tax statewide for all Districts, and to limit future growth of and reliance upon property tax to support public education. Funding sources for the School Finance Act is derived by the following formula:

Total Program Funding = local property taxes + general specific ownership taxes + state equalization.

School District finance is also significantly affected by Amendment 23, which was approved by the voters in November 2000. This state constitutional amendment requires that statewide base per pupil funding and state categorical program funding increase by inflation plus one percent for ten years beginning with the fiscal year ended June 30, 2002. After that ten-year window has expired, the state must increase funding at the rate of inflation. This funding calculation attempts to align Colorado Districts to inflation adjusted funding levels of 1988. The formula will also increase the District's reliance upon the state and decrease the District's reliance upon funding over time.

**Next Year's Budget and Fund Balance**: The District's General Fund balance at the end of fiscal year 2019 is \$7,464,339. The subsequent year's budget for fiscal year 2020 is fiscally balanced.

#### **Request for Information:**

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information in this report or requests for additional financial information should be addressed to the Business Office, Gunnison Watershed School District RE-1J, 800 North Boulevard, Gunnison, Colorado 81230.

#### GUNNISON WATERSHED SCHOOL DISTRICT RE-1J

Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Position

#### June 30, 2019

Governmental Funds Total Fund Balance		18,757,139
<i>Add:</i> Property taxes receivable will be collected this calendar year, but are not available soon enough to pay for the current period's expenditures and therefore, are deferred in the funds.		254,610
Capital assets used in governmental activities are not considered current financial resources and therefore, are not reported in the governmental funds:		
Capital assets Accumulated depreciation	83,695,337 (24,834,178)	58,861,159
An internal service fund is used by the District's management to charge the cost of employee health and dental insurance to the individual funds: Assets	2,275,374	
Liabilities	(401,778)	1,873,596
Less:		
Deferred charges such as deferred refunding costs, premiums, and discounts on bonded debt, are treated as current transactions on the fund financial statements, but are capitalized and amortized on the Statement of Net Position:		
Deferred refunding costs Premiums and discounts on bonded debt	4,640,429 (4,837,501)	(197,072)
Long-term liabilities, including bonds payable, net pension liability, arbitrage payable, accrued compensated absences, leases payable, and accrued interest are not due and payable in the current period and therefore, are not reported in the funds. This is the amount of District long-term liabilities:		
Net pension liability	(37,408,935)	
Post-employment health benefits liability Bonds payable	(1,869,037) (47,415,000)	
Arbitrage payable	-	
Accrued compensated absences Leases payable	(190,886) -	
Accrued interest	(160,105)	(87,043,963)
Changes in pension related actuarial assumptions, proportion of collective pension amounts, differences between actual and expected experience and investment earnings, and differences between actual and annualized contributions to the pension plan are recorded as deferred inflows or outflows of resources and amortized over the average remaining service life of all active and inactive plan members.		
Unamortized post-employment health benefits related deferred outflows	120,904	
Unamortized post-employment health benefits related deferred inflows Unamortized pension related deferred outflows	(32,466) 11,522,135	
Unamortized pension related deferred inflows	(28,415,807)	(16,805,234)
Governmental Activities Net Position		(24,299,765)

## GUNNISON WATERSHED SCHOOL DISTRICT RE-1J Reconciliation of Revenues, Expenditures and Change in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2019

Governmental Funds Change in Fund Balances	3,086,071
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of capital outlays reported as expenditures in the governmental funds.	289,612
Debt principal payments result in a reduction of accumulated resources on the fund financial statements. The government-wide statements show these payments as reductions against long-term liabilities.	2,250,000
An internal service fund is used by the District's management to charge the cost of employee health and dental insurance to the individual funds. The net revenue of these funds is reported with the governmental activities in the Statement of Activities.	(54,084)
Amortization of deferred costs such as premium and discounts on bonds payable and deferred charges from refunding and changes in accrued interest have no impact on current available resources but do change government-wide net position.	(224,179)
Deferred property tax revenues do not provide current financial resources and are deferred on the governmental fund financial statements but recognized on the government-wide financial statements. This is the change in the deferred property tax recognized in the Statement of Activities.	61,866
Accrued compensated absences reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. This is the change in accrued compensated absences during the year.	(25,551)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of depreciation expense reported as an expenditure in the governmental activities' functions.	(1,719,768)
The difference between employer contributions to the pension plan and the change in pension liability and amortization of pension related deferrals do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	4,015,517
Changes in the District's net post-employment health benefits obligation reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This is the change in District's net post-employment health benefits obligation during the year, including differences between District contributions to the plan and amortization of post-employment health benefits related deferrals.	
	(29,693)
Governmental Activities Change in Net Position	7,649,791

Gunnison Watershed School District RE-1J

Required Supplementary Information

#### I. Summary of Significant Accounting Policies

Gunnison Watershed School District RE-1J (the "District") includes portions of both Gunnison and Saguache Counties. The District provides academic and vocational curriculum, student transportation, food services, athletic and cultural extracurricular activities, maintenance and general administrative services. The District operates the following schools:

Elementary Schools Gunnison Elementary Crested Butte Elementary	Middle Schools Gunnison Middle School	High School Gunnison High School
Preschool & Kindergarten Lake School	Community School Crested Butte Secondary School	Charter School Marble Charter School

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established by GAAP used by the District are discussed below.

## A. Reporting Entity

The District operates under an elected District Board of Education comprised of five members. As required by GAAP, the financial statements of the reporting entity include those of the District and its component units, entities for which the District is considered financially accountable. The District is considered financially accountable. The District is considered financially accountable for legally separate organizations if it is able to appoint the voting majority of an organization's governing body and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. Consideration is also given to organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based upon the above criteria, the District has identified one discretely presented component unit.

The District receives funding from local, state, and federal government sources and must comply with all the requirements of these funding sources. However, the District is not included in any other governmental reporting entity.

## **Discretely Presented Component Units – Marble Charter School**

The State of Colorado Legislature in 1993 enacted the "Charter School Act – Colorado Revised Statutes (CRS) Section 22-30-101." This Act permits the District to contract with individuals and organizations for the operation of schools within the District. The statutes define these contracted schools as "Charter Schools." Charter Schools are financed from a portion of the District's School Finance Act Revenues and from revenues generated by the Charter Schools, within the limits established by the Charter School Act. Charter Schools have separate governing boards; however, the District must approve all Charter School applications and budgets. Therefore, the Marble Charter School is included in the District's reporting entity because of the nature and significance of their operational or financial relationships with the District.

#### I. Summary of Significant Accounting Policies (continued)

#### A. Reporting Entity (continued)

Complete financial statements can be obtained by contacting Marble Charter School, 418 West Main Street, Marble, Colorado 81623.

In 1995, the District approved a charter application through a resolution, allowing for the creation of the Marble Charter School ("Marble"). Marble is located in Marble, Colorado and provides educational services for grades kindergarten through seventh. Marble received an allocation of \$0 from the District for operations in the fiscal year ended June 30, 2019.

#### B. District-wide and Fund Financial Statements

The District's basic financial statements include both District-wide (financial activities of the overall District, except for fiduciary activities) and fund financial statements (reporting the District's major and non-major funds). The District-wide financial statements categorize primary activities as either governmental or business-type. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

#### 1. District-wide Financial Statements

In the District-wide Statement of Net Position, the governmental columns are (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

The District-wide Statement of Activities reports both the gross and net cost of the District's functions and business-type activities (i.e., food service). The governmental functions are also supported by general government revenues (property taxes, specific ownership taxes, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The net costs (by function) are normally covered by general revenues. As a general rule, the effect of interfund activity has been removed from these statements.

The District-wide focus is on the sustainability of the District as an entity and the change in the District's Net Position resulting from the current year's activities.

## 2. Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The fund focus is on current available resources and budget compliance.

#### I. Summary of Significant Accounting Policies (continued)

#### B. District-wide and Fund Financial Statements (continued)

#### 2. Fund Financial Statements (continued)

The District reports the following major governmental funds:

**General Fund** – The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

**Debt Service Fund –** The *Debt Service Fund (Bond Redemption Fund)* accounts for transactions related to the District's general obligation bonds and interest.

**Capital Project Fund** – The *Capital Reserve Capital Projects Fund* accounts for transactions related to the District's acquisitions and construction of capital facilities and other capital assets.

**Special Revenue Funds** – Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt or capital projects. The term "proceeds of specific revenue sources" establishes that one of more specific restricted or committed revenues should be the foundation for a special revenue fund. The District reports the following major special revenue funds:

The *Food Services Fund* accounts for the activities of the District's school breakfast and lunch programs.

The *Pupil Activity Fund* accounts for student clubs and other organizations.

The 2014 Mill Levy Override Fund accounts for transactions related to future curriculum purchases and capital investments.

The District reports the following internal service fund:

The *Self Insurance Fund (Health Services Fund)* accounts for the employee's health and dental benefits provided to other departments or funds of the District on a cost reimbursement basis.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements. Financial statement presentation refers to classification of revenues by source and expenses by function.

#### I. Summary of Significant Accounting Policies (continued)

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### 1. Long-term Economic Focus and Accrual Basis

Both the governmental and proprietary funds in the district-wide financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

#### 2. Current Financial Focus and Modified Accrual Basis

The District's governmental fund financial statements use the current financial focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, net pension liability, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

#### 3. Financial Statement Presentation

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary fund are charges to customers for sales. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### I. Summary of Significant Accounting Policies (continued)

#### D. Financial Statement Accounts

#### 1. Cash and Cash Equivalents

Cash and cash equivalents are defined as deposits that can be withdrawn at any time without notice or penalty and investments with original maturities of three months or less.

#### 2. Investments

Investments are stated at fair value. The change in fair value of investments is recognized as an increase or decrease to investment assets and investment income. The District's investment policy permits investments in the following type of obligations which corresponds with state statutes:

- U.S. Treasury Obligations (maximum maturity of 60 months)
- Federal Instrumentality Securities (maximum maturity of 60 months)
- FDIC-insured Certificates of Deposit (maximum maturity of 18 months)
- Corporate Bonds (maximum maturity of 36 months)
- Prime Commercial Paper (maximum maturity of 9 months)
- Eligible Bankers Acceptances
- Repurchase Agreements
- General Obligations and Revenue Obligations
- Local Government Investment Pools
- Money Market Mutual Funds

#### 3. Receivables

Receivables are reported net of an allowance for uncollectible accounts.

#### 4. Property Taxes

Property taxes are assessed in one year as a lien on the property, but not collected by the governmental units until the subsequent year. In accordance with GAAP, the assessed but uncollected property taxes have been recorded as a receivable. Property tax receivables that are considered to be available (i.e. sixty days after year-end) are reported on the governmental fund financial statements. Property tax receivables that are not considered available (i.e. long term) are reported on the government wide Statement of Net Position.

#### 5. Inventory

Inventories recorded in the *Food Services Fund* consist of purchased and donated commodities. Purchased inventories are valued at cost, while donated inventories, received at no cost under a program supported by the Federal Government, are recorded at their estimated fair value at the date of receipt using the first-in, first-out method.

#### 6. Interfund Receivables and Payables

Balances at year-end between funds are reported as "due from / due to other funds" in the fund financial statements. Any residual balances not eliminated between the governmental and business-type activities are reported as "internal balances" in the district-wide financial statements.

## I. Summary of Significant Accounting Policies (continued)

#### D. Financial Statement Accounts (continued)

#### 7. Capital Assets

Capital assets, which include land, land improvements, construction in progress, buildings and improvements, equipment, and vehicles, are reported in the proprietary fund financial statements and the applicable governmental columns in the government-wide financial statements. The District defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost where historical records are available and at an estimated historical cost where no historical record exists. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Capital outlay for projects is capitalized as projects are constructed. The District does not capitalize interest on the construction of capital assets.

Buildings and improvements, equipment, and vehicles are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	50
Furniture and fixtures	20
Equipment	7
Kitchen equipment	20
Vehicles	10

#### I. Summary of Significant Accounting Policies (continued)

#### D. Financial Statement Accounts (continued)

#### 8. Pensions

The District participates in the School Division Trust Fund (SCHDTF), a costsharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### 9. Defined Benefit Other Post Employment Benefit (OPEB) Plan

The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

#### 10. Deferred Outflows and Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditures) until then. The District has three items that qualify for reporting under this category on the Statement of Net Position. One item is deferred charge on refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded debt or refunding debt. Other items are the collective deferred outflows of resources related to the District's net pension obligation and other postemployment benefit obligations ("OPEB"). Pension and OPEB contributions made after the measurement date, and the net difference between projected and actual earnings will be recognized as a reduction of the net pension or OPEB liability in future periods.

Deferred inflows of resources represent an acquisition of net position that apply to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. Deferred revenue reported in the governmental balance sheet is deferred and recognized as an inflow of resources in the period that the amounts become available. Collective deferred inflows related to the District's net pension obligation and other post-employment benefits obligations are reported on the Statement of Net Position and are amortized over the average service lives of participants. See Note III (G) below for discussion on pension related deferred outflows and inflows.

#### I. Summary of Significant Accounting Policies (continued)

#### D. Financial Statement Accounts (continued)

#### 11. Compensated Absences

Annual leave begins accruing on the first day of employment and accrues at the rate of eleven (11) days per year for non-classified staff and one (1) day per month for classified staff. Any unused vacation leave is paid out upon termination.

Non-Classified District employees with seventy-five (75) days of accumulated annual leave may request reimbursement of up to six (6) days of unused annual leave each year at \$50 per day. Retiring Non-Classified District employees with twenty (20) or more years of employment with the District can apply to be paid for up to one-hundred (100) days of accumulated annual leave at \$50 per day.

Vacation Leave – Classified year-round District employees may accrue unused vacation leave at their current daily rate. In addition, District employees are paid for accumulated vacation at their current daily rate upon termination.

Vested or accumulated leave that is expected to be liquidated with expendable available financial resources are reported as expenditures and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated leave that are not expected to be liquidated with expendable available financial resources are reported in the governmental activities column in the District-wide financial statements. Vested or accumulated leave of the proprietary fund type is recorded as an expense and a liability of that fund as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights.

#### 12. Long-term Obligations

In the district-wide financial statements and proprietary fund types in the fund financial statements, long-term debt is reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount and deferred refunding costs. Bond premiums, discounts, and deferred refunding costs are amortized over the life of the bonds based on interest payments.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures in the fund financial statements.

#### I. Summary of Significant Accounting Policies (continued)

#### D. Financial Statement Accounts (continued)

#### 13. Fund Equity

Governmental accounting standards establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balance classifications include Non-spendable, Restricted, Committed, Assigned, and Unassigned. These classifications reflect not only the nature of funds, but also provide clarity to the level of restriction placed upon fund balance. Fund balance can have different levels of restraint such as external versus internal compliance requirements.

Unassigned fund balance is a residual classification within the *General Fund*. The *General Fund* should be the only fund that reports a positive unassigned balance. In all other funds, unassigned is limited to negative residual fund balance.

#### 14. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it that are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

#### E. Significant Accounting Policies

#### 1. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the District's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.

#### 2. Credit Risk

The receivables of the various funds of the District are primarily due from other governments. Management believes that the credit risk related to the receivables is minimal.

## 3. Fund Balance Policy

The District has adopted minimum fund policy for the General Fund. The policy requires a minimum fund balance of at least 15% of the estimated General Fund expenditures.

### II. Stewardship, Compliance, and Accountability

### A. Bond Trustee

Colorado state statutes require all property taxes levied for the purpose of satisfying bonded indebtedness to be administered by at least one third party custodian designated by the District. The third party custodian is required to ensure all taxes levied to satisfy the obligations of bonded indebtedness are used accordingly. The District has entered into a custody agreement with Gunnison County, Colorado in order to meet this requirement.

## B. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year-end.

The District follows these procedures in establishing the budgetary data reflected in the basic financial statements:

- a. On or about December 1, the Superintendent submits to the Board of Education a five-year financial projection. This is the basis for budgeting guidelines established by the Board of Education.
- b. By May 31<sup>st</sup>, the Superintendent submits to the Board a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and means of financing them.
- c. Public hearings are conducted at a regular Board of Education meeting to obtain taxpayer comment.
- d. Prior to June 30, the budget is legally adopted by the Board of Education.
- e. Formal budgetary integration is employed as a management control device during the year for all funds.
- f. The District issues a separate budget document after the budget is approved by the Board of Education.

Colorado Budget Law requires that all funds have legally adopted budgets and appropriations. The total expenditures for each fund may not exceed the amount appropriated. Appropriations for a fund may be increased if unanticipated revenues offset them. Where applicable, the Board of Education includes available fund balance in the amount appropriated in the annual Appropriations Resolution.

Authorization to transfer budgeted amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the Superintendent of Schools and may be delegated to an appropriate level of management. Revisions and/or supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

Budgetary amounts reported in the accompanying basic financial statements are as originally adopted and amended by the Superintendent and/or the Board of Education throughout the year except they exclude appropriated available fund balance. Individual amendments were not material in relation to the original appropriations.

Budgets are prepared on a GAAP basis for all funds except the General Fund, which recognized revenue and expense for the proportionate share of the State of Colorado's contribution payment to PERA's School Division Trust Fund. The budget for this fund has been adopted on a non-GAAP budget and are reconciled to GAAP below:

## II. Stewardship, Compliance, and Accountability (continued)

### B. Budgetary Information (continued)

	General Fund					
Net change in fund balances - budget basis Add/(less):	\$	1,467,006				
Pension direct distribution - special funding		303,811				
Pension expense - special funding		(303,811)				
Net change in fund balances - GAAP basis	\$	1,467,006				

During the year supplemental appropriation ordinances were approved for the following funds:

Fund	Original Appropriation		A	Final propriation	 Change
General Fund 2014 Mill Levy Override Fund Capital Reserve Capital	\$	19,848,172 2,127,722	\$	20,682,739 2,076,296	\$ 834,567 (51,426)
Projects Fund		281,118		860,000	578,882

During the year, the District's Food Service Fund and Health Services Fund expenditures exceeded appropriations. This may be a violation of Colorado State Statute.

### C. TABOR Amendment

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20; commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of any expiring tax, or tax policy change directly causing a net tax revenue gain to any local government. Any revenues earned in excess of the fiscal year spending limit must be refunded in the next fiscal year, unless voters approve retention of such excess revenue.

TABOR requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be 3% or more of fiscal year spending. The District has reserved \$743,427 of its June 30, 2019 fund balances for this purpose.

## II. Stewardship, Compliance, and Accountability (continued)

## C. TABOR Amendment (continued)

In 1997, the District's electorate approved the following ballot question: *"Without increasing any tax rates or imposing any new tax shall Gunnison Watershed School District RE-J1 be authorized to collect, keep and expend all District revenues received in fiscal year 1998 and each year thereafter without regard to any spending, revenue raising or other limitation in Article X, Section 20 of the Colorado Constitution or other laws of the state?".* 

The District believes it is in compliance with the requirements of the TABOR Amendment. However, the Amendment is complex and subject to interpretation. Many of its provisions will require judicial interpretation.

## III. Detailed Notes on All Funds

## A. Deposits and Investments

The District's deposits are entirely covered by federal depository insurance ("FDIC") or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The FDIC insures the first \$250,000 of the District's deposits at each financial institution. Deposit balances for accounts over \$250,000 are collateralized as required by PDPA. The carrying amount of the District's demand deposits was \$21,835,721 at year end.

### Fair Value of Investments

The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. As such, a fair value hierarchy categorizes the inputs used to measure the fair value of the investments into three levels, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

At June 30, 2019, the District has the following recurring value measurements:

Investments Measured at Net Asset Value	 Total
COLOTRUST	\$ 17,244,544

### III. Detailed Notes on All Funds (continued)

#### A. Deposits and Investments (continued)

The District is governed by the deposit and investment limitations of state law. Unrealized gains / losses were \$0, which reflects the change in fair market value of investments. The deposits and investment balances at June 30, 2019, are as follows:

					Matu	rities	
_	Standard &		Le	ss Than One	One to Five		
Туре:	Poor's Rating	Poor's Rating Balance			Year		Years
Deposits:							
Petty Cash	Not rated	\$	75	\$	75	\$	-
Checking accounts	Not rated		5,256,784		5,256,784		-
Cash with fiscal agent	Not rated		23,562		23,562		-
Investments:							
Investment pool	AAAm		17,244,544		17,244,544		-
-		\$	22,524,965	\$	22,524,965	\$	-

At June 30, 2019, the District was invested in the Colorado Government Liquid Asset Trust ("COLOTRUST"), an investment vehicle established for local government entities in Colorado to pool surplus funds. The Colorado Division of Securities administers and enforces the requirements of creating and operating COLOTRUST. The pool operates in conformity with the Securities and Exchange Commission's Rule 2a-7 with each share equal in value to \$1.00.

Investments of COLOTRUST are limited to those allowed by State statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments.

*Interest Rate Risk.* The District limits investments maturities as required by state statutes as a means of managing its exposure to fair value losses arising from increasing interest rates. State statutes require the District to limit maturities to five years from the date of purchase. Maturities of investments held at June 30, 2019, are provided in the previous schedule. The District coordinates its investment maturities to closely match cash flow needs.

*Credit Risk.* State law specifies instruments in which local governments may invest including obligations of the United States, certain U.S. governmental agency securities, local government investment pools, and commercial paper among other items. The District's general investment policy is to invest surplus funds in accordance with state law to ensure the preservation of capital, to ensure that adequate funds are available at all times to meet the financial obligations of the District when due, and to realize rates of return on invested funds which are comparable to market levels.

*Concentration of Credit Risk.* The District diversifies its investments by security type and institution. The District places no limit on the amount it may invest in any one issuer.

# III. Detailed Notes on All Funds (continued)

## B. Receivables

Receivables as of year-end for the District's major and non-major funds, including applicable allowances for uncollectible accounts are as follows:

	C	General Fund	Re	Bond demption Fund	Foo	d Services Fund	Α	Pupil ctivity <sup>-</sup> unds	4 Mill Levy Override Fund	Gov	Total /ernmenta Funds
Receivables:											
Taxes	\$	468,312	\$	199,176	\$	-	\$	-	\$ 116,949	\$	784,437
Accounts		-		-		-		9,966	-		9,966
Other		171,340		-		34,804		-	 -		206,144
Net Receivables	\$	639,652	\$	199,176	\$	34,804	\$	9,966	\$ 116,949	<u>\$</u>	1,000,547

Governmental funds report property tax receivable for property taxes levied in fiscal year 2019 but not available until 2020.

# C. Capital Assets

Capital asset activity for the year ended June 30, 2019, was as follows:

	Beginning Balance		Increases		Decreases		 Ending Balance
Governmental activities:							
Capital assets,							
not being depreciated:							
Land	\$	2,866,151	\$	-	\$	-	\$ 2,866,151
Construction in progress				36,000		-	 36,000
Total capital assets,							
not being depreciated		2,866,151		36,000		-	 2,902,151
Capital assets,							
being depreciated:							
Buildings and improvements		76,191,175		-		-	76,191,175
Equipment		1,878,118		61,214		-	1,939,332
Vehicles		2,470,281		192,398		-	 2,662,679
Total capital assets							
being depreciated		80,539,574		253,612		-	 80,793,186
Total capital assets - Cost		83,405,725		289,612		-	 83,695,337
Less accumulated depreciation:							
Buildings and improvements		(20,679,090)		(1,454,148)		-	(22,133,238)
Equipment		(819,676)		(103,595)		-	(923,271)
Vehicles	-	(1,615,644)		(162,025)		-	 (1,777,669)
Total accumulated depreciation		(23,114,410)		(1,719,768)		-	 (24,834,178)
Governmental activities							
capital assets, net	\$	60,291,315	\$	(1,430,156)	\$	_	\$ 58,861,159

The District had \$5,077,047 of fully depreciated capital assets still in service at June 30, 2019.

# III. Detailed Notes on All Funds (continued)

## C. Capital Assets (continued)

The District had the following capital outlay and depreciation expense for the following functions:

	Capital Outlay	Depreciation Expense		
Governmental activities:				
Direct instruction	\$ -	\$	1,417,240	
General administration	36,000		9,038	
Custodial and maintenance	61,214		76,300	
Transportation	192,398		189,895	
Food services	 -		27,295	
Total - governmental activities	\$ 289,612	\$	1,719,768	

# D. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of June 30, 2019, was as follows:

	eivable Fund	Payable Fund			
General	\$ 3,513	\$	-		
Pupil Activity	-		(1,421)		
2014 Mill Levy Override	 -		(2,092)		
	\$ 3,513	\$	(3,513)		

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Transfers for fiscal year 2019 were as follows:

 Amount	Transfer Purpose
\$ (1,381,071)	To fund operations in other funds.
313,343	Funding from the General Fund.
 1,067,728	Funding from the General Fund.
\$ -	
\$	\$ (1,381,071) 313,343

## III. Detailed Notes on All Funds (continued)

### E. Long-term Debt – Governmental Activities

### 1. General Obligation Bonds, Series 2008

On December 29, 2008, the District issued \$10,000,000 in General Obligation Bonds Series 2008, with a final maturity date of December 1, 2029, for the purpose of financing the costs of: improving, remodeling, repairing and making additions to District buildings; District-wide upgrades for security and life safety needs; and, to the extent funds are available after providing for the above purposes, for the purpose of equipping said facilities. Principal and interest are payable semi-annually on June 1 and December 1 at rates from 5% to 5.125%.

The bonds maturing on or before December 1, 2018, and after December 31, 2019, were refunded through the issuance of the General Obligation Refunding Bonds, Series 2014. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the Statement of Net Position.

## 2. General Obligation Bonds, Series 2009

On January 20, 2009, the District issued \$45,000,000 in General Obligation Bonds Series 2009, with a final maturity date of December 1, 2033, for the purpose of financing the costs of: improving, remodeling, repairing and making additions to District buildings; District-wide upgrades for security and life safety needs; and, to the extent funds are available after providing for the above purposes, for the purpose of equipping said facilities.

Principal and interest are payable semi-annually on June 1 and December 1 at rates from 3.0% to 5.25%.

Bonds maturing on or before December 1, 2018, are not subject to redemption prior to maturity; Bonds maturing on and after December 31, 2019, are subject to optional redemption prior to maturity at the option of the District at a redemption price equal to the principal amount thereof, plus accrued interest to the redemption date.

The bonds maturing on or before December 1, 2018, and after December 31, 2019, were partially refunded through the issuance of the General Obligation Refunding Bonds, Series 2014. As a result, the partially refunded bonds are considered defeased and the liability has been removed from the governmental activities column of the Statement of Net Position.

## III. Detailed Notes on All Funds (continued)

### E. Long-term Debt – Governmental Activities (continued)

## 2. General Obligation Bonds, Series 2009 (continued)

The Series 2009 Bonds maturing on December 1, 2033 are subject to mandatory sinking fund redemption requirements as follows:

2030	\$ 3,730,000
2031	3,930,000
2031	4,130,000
2033	 4,350,000
	\$ 16,140,000

## 3. General Obligation Refunding Bonds, Series 2014

On October 9, 2014, the District issued \$49,355,000 of its General Obligation Refunding Bonds, Series 2014. The proceeds of the bonds were used to refund the District's outstanding General Obligation Refunding Bonds, Series 2008, in the principal amount of \$10,000,000 and partially refund the District's outstanding General Obligation Refunding Bonds, Series 2009, in the principal amount of \$38,030,000. The 2008 bonds are considered to be defeased and have been removed from long-term debt. The partial refunded amount of the 2009 bonds is considered defeased and has been removed from the long-term debt.

Principal and interest are payable semi-annually on June 1 and December 1 at rates from 1% to 5%. The final maturity of the bonds is December 1, 2033.

Bonds maturing on or before December 1, 2024, are not subject to redemption prior to maturity. Bonds maturing on and after December 31, 2025, are subject to optional redemption prior to maturity at the option of the District at a redemption price equal to the principal amount thereof plus accrued interest to the redemption date.

The reacquisition price exceeds net carrying amount of the old debt by \$7,667,420. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt.

### 4. Defeasance of Debt

As noted above, proceeds of 2004 and 2014 refunding bond issuances were used to purchase U.S. government securities to retire previous bond issues (i.e. 2008 and 2009). Sufficient U.S. government, state and local governmental securities were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the District's financial records. The amount of the District's defeased debt is not readily determinable.

# III. Detailed Notes on All Funds (continued)

## E. Long-term Debt – Governmental Activities (continued)

## 5. Schedule of Future General Obligation Bond Payments

The District's aggregate annual debt service requirements for general obligation bonds at June 30, 2019, are as follows:

Fiscal Year						
Ending	Debt					
	Total	Total				
	Principal	Interest				
2020	\$ 2,355,000	\$ 1,921,250				
2021	2,445,000	1,849,700				
2022	2,495,000	1,787,825				
2023	2,575,000	1,698,900				
2024	2,670,000	1,580,650				
2025 - 2029	15,565,000	5,709,625				
2030 - 2034	19,310,000	1,962,025				
Total	\$47,415,000	\$16,509,975				
Add: Unamortized						
bond premium	4,837,501					
Total bonded debt	\$52,252,501					

# 6. Changes in Long-term Liabilities

The following is a summary of changes in long-term liabilities for the year ended June 30, 2019:

	Balance July 1, 2018	Additions		Additions Reductions		_	oue Within One Year
Governmental Activities:							
General Obligation Bonds:							
Bonds, Series 2009	\$ 2,050,000	\$	-	\$ (2,050,000)	\$-	\$	-
Refunding, Series 2014	47,615,000		-	(200,000)	47,415,000		2,355,000
Unamortized bond							
premiums/discounts	5,200,866		-	(363,365)	4,837,501		-
Net Pension Liability	76,843,438		-	(39,434,503)	37,408,935		-
Net OPEB Liability	1,752,188		116,196	653	1,869,037		-
Accrued compensated							
absences	 165,335		36,571	(11,020)	190,886		47,722
Total Governmental Activities	\$ 133,626,827	\$	152,767	\$ (42,058,235)	\$ 91,721,359	\$	2,402,722

For governmental activities, compensated absences are liquidated by the General Fund.

### Detailed Notes on All Funds (continued)

## F. Fund Balance Classifications

III.

The District classifies governmental fund balances as follows:

*Non-spendable* – includes fund balance amounts inherently non-spendable since they represent inventories, prepaid items, long-term portions of loans receivable, etc.

#### Spendable Fund Balance:

*Restricted* – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

*Committed* – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority, which is the School Board of the District. The District's original budget legislation begins with combining historical data, assessment of needs for the upcoming year and the District's platform to review, and/or make changes to each department's budget. The budget is formally presented to the School Board of the District via an advertised public process for their review, revisions and final approval by year-end. All subsequent budget requests made during the year, after School Board approval, must be presented via a public process and again approved by the School Board of the District. The District has committed \$3,722,946 for future year's expenditures, \$84,105 for food service, \$3,026,260 for educational purposes, and \$612,581 for student activities as of June 30, 2019.

*Assigned* – includes spendable fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the School Board of the District or its management designees.

*Unassigned* – includes residual positive fund balance within the General Fund, which has not been classified within the other above-mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes. The District uses restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents or contracts that prohibit this, such as grant agreements that require dollar for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts when expenditures are made. The District does not have an adopted minimum fund balance policy; however, the District's budget includes calculations of targeted reserve positions, which is reported annually to the School Board of the District.

### III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

*Plan Description:* Eligible employees of the District are provided with pensions through the School Division Trust Fund (SCHDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at <u>www.copera.org/investments/pera-financial-reports</u>.

*Benefits provided as of December 31, 2018:* PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

### III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

As of December 31, 2018, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments in certain years, referred to as annual increases in the C.R.S. Pursuant to SB 18-200, there are no annual increases (AI) for 2018 and 2019 for all benefit recipients. Thereafter, benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure will receive an annual increase, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 1.5 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 will receive the lesser of an annual increase of 1.5 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SCHDTF. The automatic adjustment provision may raise or lower the aforementioned AI for a given year by up to one-quarter of 1 percent based on the parameters specified C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

*Contribution provisions as of June 30, 2019:* Eligible employees, the District, and the State are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements for the SCHDTF are established under C.R.S. § 24-51-401, et seq. and § 24-51-413. Eligible employees are required to contribute 8 percent of their PERA-includable salary during the period of July 1, 2018 through June 30, 2019. Employer contribution requirements are summarized in the table below:

	January 1, 2018 through December 31, 2018	January 1, 2019 through June 30, 2019
Employer Contribution Rate	10.15%	10.15%
Amount of Employer Contribution apportioned to the		
Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	(1.02)%	(1.02)%
Amount Apportioned to the SCHDTF	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	4.50%	4.50%
Supplemental Amortization Equalization Disbursement (SAED)	F F00/	F F00/
as specified in C.R.S. § 24-51-411	5.50%	5.50%
Total Employer Contribution Rate to the SCHDTF	19.13%	19.13%

Contribution rates for the SCHDTF are expressed as a percentage of salary as defined in C.R.S. 24-51-101(42).

### III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

As specified in C.R.S. § 24-51-413, the State is required to contribute \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. A portion of the direct distribution allocated to the SCHDTF is considered a nonemployer contribution for financial reporting purposes.

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$2,277,576 for the year ended June 30, 2019.

*Pension Liabilities:* The net pension liability for the SCHDTF was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. Standard update procedures were used to roll-forward the total pension liability to December 31, 2018. The District's proportion of the net pension liability was based on the District's contributions to the SCHDTF for the calendar year 2017 relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

At June 30, 2019, the District reported a liability of \$37,408,935 for its proportionate share of the net pension liability that reflected a reduction for support from the State as a nonemployer contributing entity. The amount recognized by the District as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$32,909,076
The State's proportionate share of the net pension	
liability as a nonemployer contributing entity	
associated with the District	4,499,859
Total	\$37,408,935

At December 31, 2018, the District's proportionate share was 0.2113%, as compared to its proportionate share of 0.2402% at December 31, 2017.

*Pension Expense:* For the year ended June 30, 2019, the District recognized pension expense of \$4,015,517 and revenue of \$303,811 for support from the State as a nonemployer contributing entity.

# III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

*Deferred Outflows of Resources and Deferred Inflows of Resources:* At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Dutflows of Resources	Deferred Inflows of Resources	
Difference between expected and				
actual experience	\$	1,268,953	\$	-
Net difference between projected and				
actual earnings on pension plan				
investments		2,039,019		-
Changes in actuarial assumptions		6,982,542	23,26	64,334
Changes in proportionate share of				
contributions		61,559	5,15	51,473
Difference between actual and reported				
contributions recognized		1,930		-
Contributions subsequent to the				
measurement date		1,168,132		
	\$	11,522,135	\$ 28,47	15,807

Contributions subsequent to the measurement date of December 31, 2018, which are reported as deferred outflows of resources related to pensions, will be recognized as a reduction of the net pension liability calculated at the December 31, 2019 measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2020	\$ (3,523,598)
2021	(9,456,853)
2022	(6,196,736)
2023	1,115,383
	\$ (18,061,804)

# III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

*Actuarial assumptions.* The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 - 9.70 percent
Long-term investment Rate of Return,	
net of pension plan investment expenses,	
including price inflation	7.25 percent
Discount rate	4.78 percent
Post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07;	
and DPS Benefit Structure (automatic)	2.00 percent
PERA Benefit Structure hired prior to 12/3/06;	
(ad hoc, substantively automatic)	Financed by the
	Annual Increase Reserve

The revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2017 to December 31, 2018:

Discount rate	7.25 percent
Post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07;	
and DPS Benefit Structure (automatic)	0.00 percent through 2019 and 1.50 percent compounded annually, thereafter
PERA Benefit Structure hired prior after 12/31/06	-
(ad hoc, substantively automatic)	Financed by the
	Annual Increase
	Reserve

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

### III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

### III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Discount rate.* The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200. Employer contributions also include the current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.

### III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

- As specified in law, the State will provide an annual direct distribution of \$225 million (actual dollars), commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount determination does not use the municipal bond rate, and therefore, the discount rate is 7.25 percent.

As of the prior measurement date, the long-term expected rate of return on plan investments of 7.25 percent and the municipal bond index rate of 3.43 percent were used in the discount rate determination resulting in a discount rate of 4.78 percent, 2.47 percent lower compared to the current measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Collective net pension liability Proportionate share of net	\$ 22,511,490,000	\$ 17,707,054,000	\$ 13,675,622,000
pension liability	\$ 47,559,062	\$ 37,408,935	\$ 28,891,902

*Pension plan fiduciary net position.* Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at <u>www.copera.org/investments/pera-financial-reports</u>.

### III. Detailed Notes on All Funds (continued)

# G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: *Concerning Modifications to the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan within the Next Thirty Years.* The bill was signed into law by Governor Hickenlooper on June 4, 2018. A brief description of some of the major changes to plan provisions required by SB 18-200 for the SCHDTF are listed below. A full copy of the bill can be found online at www.leg.colorado.gov.

- Increases employer contribution rates for the SCHDTF by 0.25 percent on July 1, 2019.
- Increases employee contribution rates for the SCHDTF by a total of 2 percent (to be phased in over a period of 3 years starting on July 1, 2019).
- As specified in C.R.S. § 24-51-413, the State is required to contribute \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. A portion of the direct distribution allocated to the SCHDTF is considered a nonemployer contribution for financial reporting purposes.
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, increases the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees.
- Member contributions, employer contributions, the direct distribution from the State, and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020, and then each year thereafter, to help keep PERA on path to full funding in 30 years.

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources

*Plan description.* Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at <u>www.copera.org/investments/pera-financial-reports.</u>

### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

*PERA Benefit Structure.* The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

*DPS Benefit Structure.* The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

*Contributions*. Pursuant to Title 24, Article 51, Section 208(1) (f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. For the year ended June 30, 2019, the District's contributions to HCTF were approximately \$121,439.

*Liabilities.* At June 30, 2019, the District reported a liability of \$1,869,037 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2017. Standard update procedures were used to roll forward the total OPEB liability to December 31, 2018. The District proportion of the net OPEB liability was based on the District's contributions to the HCTF for the calendar year 2018 relative to the total contributions of participating employers to the HCTF.

At December 31, 2018, the District proportion was 0.1348% as compared to its proportion of 0.1382% measured as of December 31, 2017.

# III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

*Expense and Deferred Outflows of Resources and Deferred Inflows of Resources.* For the year ended June 30, 2019, the District recognized other post-employment benefit expense of \$29,693. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expenses and		
actual experience	6,784	2,845
Change of assumptions or other inputs	13,111	29,621
Net difference between projected and actual		
earnings on plan investments	10,748	-
Changes in proportionate share of contributions	27,977	-
Contributions subsequent to measurement date	62,284	
	120,904	32,466

Contributions subsequent to the measurement date of December 31, 2018, which are reported as deferred outflows of resources related to other post-employment benefits, will be recognized as a reduction of the net other post-employment benefits liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB related expense as follows:

A
Amortization
2,825
2,825
2,828
10,290
7,082
304
26,154

### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

*Actuarial assumptions.* The total OPEB liability in the December 31, 2017, actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent
	in aggregate
Long-term investment Rate of Return, net of OPEB	
plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Health care costs trend rates	
PERA benefit structure:	
Services based on premium subsidy	0.00 percent
PERACare Medicare plans	5.00 percent
Medicare part A premiums	3.25 percent for 2018
	gradually rising to 5.00
	percent in 2025
DPS benefit structure:	
Services based on premium subsidy	0.00 percent
PERACare Medicare plans	N/A
Medicare part A premiums	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

The actuarial assumptions used in the December 31, 2017, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as discussed below.

In determining the additional liability for PERACare enrollees who are age sixty–five or older and who are not eligible for premium–free Medicare Part A, the following monthly costs/premiums are assumed for 2018 for the PERA Benefit Structure:

Medicare Plan	Cost for Members Without Medicare Part A	Premiums for Members Without Medicare Part A
Self-Funded Medicare Supplement Plans	\$736	\$367
Kaiser Permanente Medicare Advantage HMO	602	236
Rocky Mountain Health Plans Medicare HMO	611	251
UnitedHealthcare Medicare HMO	686	213

### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

The 2018 Medicare Part A premium is \$422 per month.

In determining the additional liability for PERACare enrollees in the PERA Benefit Structure who are age sixty–five or older and who are not eligible for premium–free Medicare Part A, the following chart details the initial expected value of Medicare Part A benefits, age adjusted to age 65 for the year following the valuation date:

Medicare Plan	Cost for Members Without Medicare Part A
Self-Funded Medicare Supplement Plans	\$289
Kaiser Permanente Medicare Advantage HMO	300
Rocky Mountain Health Plans Medicare HMO	270
UnitedHealthcare Medicare HMO	400

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2017, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.25%
2023	5.00%	4.50%
2024	5.00%	4.75%
2025+	5.00%	5.00%

#### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The following health care costs assumptions were updated and used in the measurement of the obligations for the HCTF:

• Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2018 plan year.

### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

• The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease	Current Trend	1% Increase in
	in Trend Rates	Rates	Trend Rates
PERA Care Medicare Trend Rate	4.00%	5.00%	6.00%
Initial Medicare Part A Trend Rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A Trend	3.25%	4.25%	5.25%
Collective Net OPEB Liability	1,322,972,000	1,360,542,000	1,403,754,000
Proportionate Share of Net OPEB Liability	1,817,426	1,869,037	1,928,399

*Discount rate.* The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2018, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

### III. Detailed Notes on All Funds (continued)

# H. Health Care Trust Fund Liabilities and Related Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources (continued)

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Collective Net OPEB Liability	1,522,328,000	1,360,542,000	1,222,230,000
Proportionate Share of Net OPEB Liability	2,091,290	1,869,037	1,679,032

OPEB plan fiduciary net position. Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained <u>www.copera.org/investments/pera-financial-reports</u>.

## IV. Other Information

# A. Defined Contribution Pension Plan

*Plan Description.* Employees of the District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at www.copera.org/investments/pera-financial-reports.

*Funding Policy.* Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. Employees are immediately vested in their own contributions, employer contributions and investment earnings. The employer contributions to the 401(k) Plan from the District for the years ended June 30, 2019, 2018 and 2017, were \$2,112, \$2,112, and \$2,464, respectively.

### B. 403(b) Defined Contribution Pension Plan

*Plan Description.* The District offers participation in an independent 403(b) retirement savings plan. All employees are eligible except student teachers. Contribution limits are set by the IRS. The District contracts with American Fidelity Insurance Company ("AFPIanServ") as Plan Administrator. The District makes minimal contributions to the plan for a limited segment of grandfathered employees.

### IV. Other Information (continued)

### C. 457(b) Deferred Compensation Plan

*Plan Description.* The District has a deferred compensation plan created in accordance with IRC Section 457 for employees working 30 hours or more per week. This plan is administered by Waddell & Reed. Participation in the plan is optional. Contribution limits are set by the IRS. The District makes minimal contributions to the plan for limited segment of grandfathered employees.

## D. Risk Management

*Risk of Loss:* The District is exposed to various risks of loss related to workers' compensation, general liability, unemployment, torts, theft of, damage to, and destruction of assets, and error and omissions. The District carries commercial coverage for these risks and claims and does not expect claims to exceed their coverage. For the last three years, settled claims have not exceeded commercial insurance coverage, nor has there been any reduction in insurance coverage.

*Pupil Counts:* Each year the District submits data regarding pupil counts to the Colorado Department of Education (CDE). The purpose of this data collection is to obtain required student level data as provided for by state statute(s), including information regarding students' funding eligibility as outlined in the Public School Finance Act of 1994 (22-54-101, C.R.S.).

The Student October Count is based on a one (1) day membership count in which districts are asked to report all students who are actively enrolled and attending classes through their district on that date. In an effort to ensure accurate reporting of those data fields associated with student funding, CDE conducts periodic compliance audits of each district's student October count data. This data not only determine per pupil funding, but also at risk and English Language Proficiency Act (ELPA) funding. CDE audits districts every one to four years, the frequency of which is determined by a number of factors including, but not limited to, the size and location of the district, as well as issues or concerns that might have arisen from prior audits.

The District believes its pupil count information is accurate and any adjustment would not be material.

*Self-Insurance Fund:* The District also offers health insurance to certain employees through the District's self-funded health plan with excess coverage underwritten by a commercial carrier. The District accumulates resources to pay health insurance costs but carries a stop loss policy for individuals for \$75,000 and an aggregate stop loss minimum exposure of \$2,035,760. Liabilities for retained risk claims are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported ("IBNR").

### IV. Other Information (continued)

### D. Risk Management (continued)

The following is a summary of the changes in the balances of claims liabilities during 2019 and 2018:

	2019		 2018
Unpaid claims, beginning	\$	309,474	\$ 328,659
New claims incurred		2,929,204	2,077,376
Claim payments		(2,836,900)	(2,096,561)
Unpaid claims, ending	\$	401,778	\$ 309,474

# E. Contingencies

# 1. Legal Claims

During the normal course of business, the District incurs claims and other assertions against it from various agencies and individuals. Management of the District and their legal representatives feel none of these claims or assertions are significant enough that they would materially affect the fairness of the presentation of the financial statements at June 30, 2019.

# 2. Federal Programs

Funds received from Federal grants are subject to audit and disallowance of ineligible cost. Management of the District feels any potential questioned or disallowed costs or liability arising from the Federal program audits would not materially affect the fairness of the presentation of the financial statements at June 30, 2019.

# 3. State Programs

The District receives payment for State equalization, State transportation and various other State revenues to fund programs. These grants and programs are subject to audit and may result in the District either refunding amounts due for overpayment or receiving additional revenue for underpayment by the State.

These adjustments can be material. The amount of these adjustments cannot be estimated or determined as of the date of these financial statements.

# F. Colorado Department of Education Financing – Interest Free Loan Program

The Colorado Department of Education allows school districts to borrow funds up to the next year's estimated property tax collections for the specific district to cover operating expenditures. The program was established to assist districts who receive the majority of their program funding through local property taxes. Most property tax revenues are not received by school districts until the last four months of the fiscal year resulting in a cash flow deficit. The loans are repaid to the State as property taxes are collected.

In the fiscal year 2019, the District did not obtain any financing from the State of Colorado in order to meet the District's obligations.

# IV. Other Information (continued)

## G. Subsequent events

## 1. Workforce Housing Purchase

On August 9, 2019, the District purchased a workforce housing unit in the amount of \$590,000 in the Town of Crested Butte. The Board approved the purchase by resolution on February 11, 2019.

## 2. Intergovernmental Agreement with the Town of Crested Butte

On September 17, 2019 the District entered into an intergovernmental agreement with the Town of Crested Butte. The parties agreed upon terms and conditions for the ongoing maintenance and coordinated joint use of School Facilities, Town Facilities, and the School Parking Lot, as defined in the agreement. The term of the agreement is ten years, with a joint review of the terms of the agreement by both parties every five years.

#### A. Changes to assumptions or other inputs

## 1. Changes since the December 31, 2017 actuarial valuation:

• The single equivalent interest rate ("SEIR") was increased from 4.78 percent to 7.25 percent to reflect the changes to the projection's valuation basis, which no longer resulted in a projected year of depletion of the FNP, thereby eliminating the need to apply the municipal bond index rate.

## 2. Changes since the December 31, 2016 actuarial valuation:

- The single equivalent interest rate ("SEIR") was lowered from 5.26 percent to 4.78 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate.
- The municipal bond index rate used in the determination of the SEIR changed from 3.86 percent on the prior measurement date to 3.43 percent on the measurement date.

## 3. Changes since the December 31, 2015 actuarial valuation:

- The investment return assumption was lowered from 7.5 percent to 7.25 percent
- The wage inflation assumption was lowered from 3.90 percent to 3.50 percent
- The post-retirement mortality assumption for healthy lives for the School and DPS Divisions was changed to the RP-2014 White Collar Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 93 percent factor applied to ages below 80 and a 113 percent factor applied to age 80 and above, projected to 2018, or males, and a 68 percent factor applied to ages below 80 and a 106 percent factor applied to age 80 and above, projected to 2020, for females.
- For disabled retirees, the mortality assumption was changed to reflect 90 percent of RP-2014 Disabled Retiree Mortality Table.
- The mortality assumption for active members was changed to RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.
- The rates of retirement, withdrawal, and disability were revised to reflect more closely actual experience.
- The estimated administrative expense as a percentage of covered payroll was increased from 0.35 percent to 0.40 percent.
- The single equivalent interest rate (the "SEIR") for the SCHDTF was lowered from 7.50 percent to 5.26 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the fiduciary net position (the "FNP"), and the resulting application of the municipal bond index rate
- The SEIR for the DPS Division was lowered from 7.50 percent to 7.25 percent, reflecting the change in the long-term expected rate of return.

#### Gunnison Watershed School District RE-1J Notes to Required Supplementary Information June 30, 2019

# I. Schedule of the District's Proportionate Share of the Net Pension Liability (continued)

# A. Changes to assumptions or other inputs (continued)

# 4. Changes since the December 31, 2014 actuarial valuation

- Valuation of the full survivor benefit without any reduction for possible remarriage.
- Reflection of the employer match on separation benefits for all eligible years.
- Reflection of one year of service eligibility for survivor annuity benefit.
- Refinement of the 18-month annual increase timing.
- Refinements to directly value certain and life, modified cash refund and popup benefit forms.
- Recognition of merit salary increases in the first projection year.
- Elimination of the assumption that 35% of future disabled members elect to receive a refund.
- Removal of the negative value adjustment for liabilities associated with refunds of future terminating members.
- Adjustments to the timing of the normal cost and unfunded actuarial accrued liability payment calculations to reflect contributions throughout the year.

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

#### To the Board of Education Gunnison Watershed School District RE-1J Gunnison, Colorado

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each component unit, and each major fund of Gunnison Watershed School District RE-1J (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 13, 2019.

# Internal Control Over Financial Reporting

In planning and performing our audit on the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion of the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

INDEPENDENT AUDITOR'S REPORT To the Board of Education Gunnison Watershed School District RE-1J Gunnison, Colorado

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH UNIFORM GUIDANCE

To the Board of Education Gunnison Watershed School District RE-1J Gunnison, Colorado

# Report on Compliance for Each Major Program

We have audited the compliance of the Gunnison Watershed School District RE-1J (the "District") with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibilities

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibilities

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based in our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"*). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance with those requirements.

# **Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Member: American Institute of Certified Public Accountants

#### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance is a material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based in the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose

#### Notes to the Schedule of Expenditures of Federal Awards for the Year Ended June 30, 2019:

#### Note 1 - Basis of Presentation:

The Schedule of Expenditures of Federal Awards includes the federal grant activity of Gunnison Watershed School District RE-1J and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2, U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance")*. Therefore, some amounts presented in this schedule may differ from the amounts presented in, or used in the preparation of the basic financial statements.

#### Note 2 - Determining the Value of Non-cash Awards Expended:

Food Commodities: Valued at the assessed value provided by the federal agency at the time of receipt.

#### Note 3 - Indirect Facilities and Administration Costs:

The District did not use the 10% de minimis cost rate allowed in 200.414, Indirect (F&A) Costs, of the Uniform Guidance. The District used the indirect cost rates provided by the Colorado Department of Education.

#### Note 4 - Sub recipients:

Gunnison Watershed School District RE-1IJ did not provide any federal funds listed in the Schedule of Expenditures of Federal Awards to sub-recipients.
