

For Parents - Creating a PowerSchool Account to Access Multiple Student Accounts

A parent can create a PowerSchool account that will let them access all of their students' accounts from one screen. Also, the parent will have a separate login from their students and one that is hopefully easier for the parent to access.

Parents - You'll need to contact each student's specific school to request the Access ID and Access Password for each student before creating an account.

Once you've obtained the Access information:

- Go to the District Website (or any of the specific schools websites)
 - www.gunnisonschools.net - main site
 - <https://cbcs.gunnisonschools.net> - Crested Butte main site
 - <https://gunnisonelementary.gunnisonschools.net> - Gunnison Elementary
 - <https://gms.gunnisonschools.net> - Gunnison Middle School
 - <https://gunnisonhigh.gunnisonschools.net> - Gunnison High School
- Select - **FOR PARENTS** tab
- Select **PowerSchool** from the drop down list
- On **Student and Parent Sign In**, select **CREATE ACCOUNT** tab.

Complete all the boxes under **Parent Account Details** using the following guidelines when creating the parent password:

- Must be at least 8 characters long
- Must contain at least one uppercase and one lowercase letter
- Must contain at least one letter and one number
- Must contain at least one special character

In the **Link Students to Account** section, complete all 4 boxes for each student and hit **ENTER**.

Once you sign in, student names can be found in the upper left-hand corner of the page.

To change your password, go to **Account Preferences** on the left-hand menu.
